

# Tasks for Dev Team:

- 

1) UI changes for 'My appointments' and 'Find Your Patient' screens. The 'My appointments' screen has a 'How can we help you today?' section with three radio button options: 'I have questions about my medication', 'I am experiencing unusual symptoms', and 'I am experiencing unusual symptoms'. The 'Find Your Patient' screen has a search bar and a 'Find Patient' button. Red annotations indicate changes to the 'How can we help you today?' section and the 'Find Patient' button.
- 

2) UI changes for 'Notifications', 'My appointments', 'Medications', and 'Add profile' screens. The 'Notifications' screen shows a list of appointment reminders. The 'My appointments' screen shows a list of appointments with a 'Book' button. The 'Medications' screen shows a list of medications with a 'Book' button. The 'Add profile' screen shows a form for adding a new profile. Red annotations indicate changes to the 'Book' button and the 'Add profile' screen.
- 

3) UI changes for the 'Product Type' selection screen. The screen shows a list of product types: Tablet, Capsule, Powder, Liquid, Topical, Application, Inhalant, Spray, and Suppositories. Red annotations indicate changes to the 'Product Type' selection screen.
- 

4) UI changes for the 'Appointment' screen. The screen shows a calendar view for booking an appointment. Red annotations indicate changes to the 'Appointment' screen.
- 

5) UI changes for the 'Find Your Pharmacist' screen. The screen shows a list of popular pharmacists and a 'Pharmacist Near You' section. Red annotations indicate changes to the 'Find Your Pharmacist' screen.
